 **Calibra**[®]
Esthetic Resin Cement

For better dentistry

DENTSPLY

Finish Strong.

Calibra[®] Resin Cement is available in a dual cure Automix Syringe. You can now take advantage of a complete shade selection with shade stable[™] chemistry in the delivery system of your choice.

✓ Easy clean up

Light cure excess cement for 10 seconds to initiate a gel phase that makes clean up fast and simple.

✓ Full spectrum of esthetic shading possibilities

Translucent

Light

Medium

Dark

Opaque

Displayed colors may not perfectly represent the actual product

DENTSPLY's Shade Stable[™] chemistry gives you the confidence that the shades will not shift over time.

Esthetic Resin Cement

For virtually any indirect restoration

- Ceramic, porcelain, composite inlays/onlays, Maryland bridges, veneers and crowns
- All metal crowns, bridges, inlays/onlays including precious, semi-precious and non-precious metals
- PFM (porcelain fused to metal) crowns and bridges
- Cementation of prefabricated and cast posts

Multi-Unit Bridge

Cercon® Zirconia

All-Ceramic Crowns & Bridges

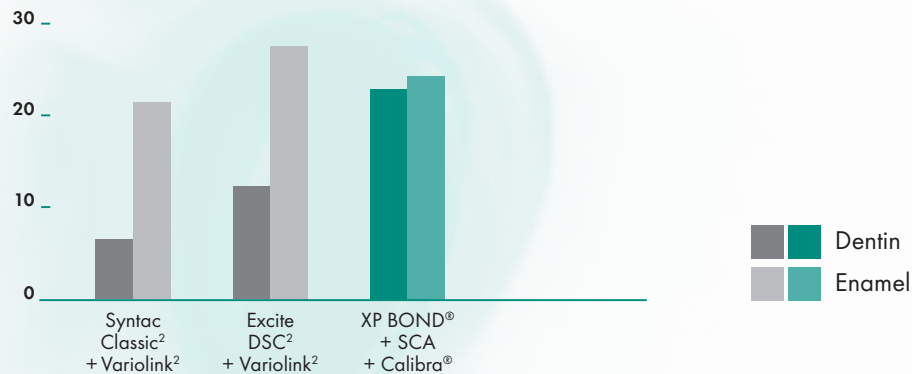

Captex® PFM

Long Lasting Strength

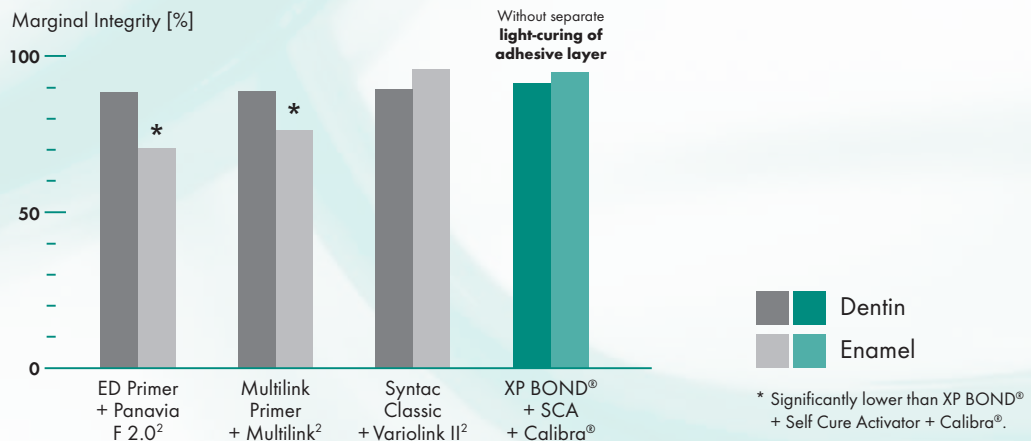

Shear Bond Strength when adhesive is not light cured¹

Shear bond strength [MPa] after 24 hours at 37°C

Marginal Integrity of ceramic inlays after thermal cycling³

Marginal Integrity [%]

Results:

XP BOND® + Self Cure Activator + Calibra® is equal to, or better than other leading adhesive cementation systems.
